

State Law Yield To Pedestrians Within Crosswalk Signs

Spring-loaded In-Street Pedestrian Crosswalk Signs reduce the risk of pedestrian injury or property damage

- WARNING:** - www.nc51warnings.ca.gov
- Diamond Grade reflective sign provides the best available visibility for unsignalized intersections, up to 1,500 feet at night or in overcast conditions.
- Double-sided, fluorescent yellow green, 12"W x 36"H sign is attached to a 31 lb base with a reactive spring assembly that bounces back upon impact, and is NCHRP-350 compliant.
- Anti-twist feature always keeps the signs facing forward into traffic.
